INSTRUMENTS

RT3 RUB PROOF TESTER

The RT3 was designed by Hanatek to increase the efficiency, repeatability and safety of rub proof testing.

The instrument is used for testing the ink/print, marking and rub resistance of cartons, films and commercial printed material.

FEATURES

AUTOMATED TESTING

Weight Selection -

Reconfiguring the instrument between tests is fast and safe using the unique push button weight selector.

Abrasion Cycles -

The cycle time is pre-programmed allowing the test to run unsupervised.

ACCESSORIES

FREE SAFETY CUTTERS

The RT3 is supplied with 100 and 50 cm² adjustable circular sample cutters which quickly and accurately prepare the sample for testing.

SPECIFICATIONS

Standards	BS 2782 BS 3110 Float position for locating sample on upper mandrel Programmable Testing
Weights	0.5, 1.0 and 2.0 Psi pressure
Power	110/240V 50/60 Hz
Speed	60 RPM
Size	(H)600 x (W)310 x (D)500mm
Weight	30kg

Certificate No. FM29741
